See Note below. You should obtain professional legal or tax advice concerning allowable HSA contribution amounts for these options.

- 1 Benefits are subject to a Plan Year deductible. Please note that there are separate, but equal, in and out of network deductibles, which do not aggregate.
- 2 Delaware law defines serious mental illness as nine diagnostic classes. Benefits for serious mental illness and substance abuse treatment are covered at the same levels as other medical care.

If individual coverage is elected, the individual deductible will apply. Benefits are then covered at the indicated percentage for each service until the coinsurance totals the individual coinsurance limit. Benefits will then be paid at 100% of the allowable charge for the individual for the remainder of the Plan Year.

If family coverage is elected, the family deductible will apply. The entire family deductible must be satisfied before benefits will be paid for any family member. Benefits are then covered at the indicated percentage for each service until the coinsurance totals the family coinsurance limit. Benefits will then be paid at 100% of the allowable charge for all family members for the remainder of the Plan Year.

Blue Individual plans do not cover maternity services or bariatric surgery. The plan includes preferred coverage for organ transplants performed at the Blue Distinction Centers for Transplants (BDCT). For transplants performed at participating but non-BDCT facilities, charges are covered at a reduced benefit level. Transplants performed at non-participating facilities are not covered.

When calculating deductible or coinsurance expenses, only the allowable charges are considered. All percentages listed above apply to Highmark Delaware's allowable charge.

Members can access in-network providers in the national BlueCard® Network across the country. You can access the network by searching online at bluecares.com or by calling a BlueCard customer service representative at **1-800-810-BLUE (2583)**.

Note: To establish and contribute to a Health Savings Account (HSA) you must be covered under a qualifying high deductible health plan (HDHP) and meet other eligibility requirements. These HDHPs are intended to be HSA-qualifying HDHPs. One of the other eligibility requirements is that you may not also be covered under another health plan that coordinates benefits with your HDHP, even if the other health plan also meets the requirements for an HDHP. You should obtain professional legal or tax advice before you establish or contribute to an HSA.
