You should obtain professional legal or tax advice regarding a Health Reimbursement Arrangement (HRA).

1 Benefits are subject to a Plan Year deductible.

2 Delaware law defines serious mental illness as nine diagnostic classes. Benefits for serious mental illness and substance abuse treatment are covered at the same levels as other medical care.

If individual coverage is elected, the individual deductible will apply. Benefits are then covered at the indicated percentage for each service until the coinsurance totals the individual coinsurance limit. Benefits will then be paid at 100% of the allowable charge for the individual for the remainder of the Plan Year.

If family coverage is elected, the family deductible will apply. The entire family deductible must be satisfied before benefits will be paid for any family member. Benefits will then be paid at 100% of the allowable charge for all family members for the remainder of the Plan Year.

When calculating deductible or coinsurance expenses, only the allowable charges are considered. All percentages listed above apply to Blue Cross Blue Shield of Delaware’s allowable charge.

Note: The plan includes reduced coverage for bariatric surgeries and preferred coverage for organ transplants performed at Blue Distinction Centers for Transplants (BDCT). For transplants performed at participating but non-BDCT facilities, charges are covered at a reduced benefit level. Transplants performed at non-participating facilities are not covered.

There are no out-of-network benefits. EPO members can access in-network providers in the national BlueCard® Network across the country. You can access the network by searching online at bluecares.com or by calling a BlueCard customer service representative at **800.810.BLUE**.

This Benefits Summary presents plan highlights only. It is not a contract. Please refer to your benefits booklet (or contact your marketing representative to request a copy) for complete information. All percentages are based on BCBSD’s allowable charge.
